Mary's hour

This is a world gathering of
all faith, religions, and philosophies directed towards Mary,
every day at noon or according to the moment of your choice.

In these times of distress when everything is falling apart, the powerful
invocation of the Mother of humanity is universally renowned.
She shows the way for a global gathering for a better world.

With respect of diversity, Mary's hour invites to an emergency call for
the protection of humanity and the planet.
